OBJECTIVE

A dedicated and innovative Information Technology student at Mbarara University of Science and Technology with a strong background in system development and technology-driven solutions. Passionate about using technology to solve real-world problems, with a focus on cattle health management and accident alert systems. Skilled in software development, data analysis, and IT support.

MUHUMUZA GERALD

EXPERIENCE

Accident Alert System Simulation

- Designed and implemented a system prototype aimed at alerting authorities and emergency responders in case of road accidents.

IT Support Intern – Mbarara University of Science and Technology

- Provided technical assistance and troubleshooting support for hardware and software issues.
- Assisted in system maintenance, network setup, and cyber security measures.

Data Collection Enumerator - Uganda Bureau of Statistics (UBOS)

- Conducted data collection during the post-enumeration survey, ensuring accuracy and reliability of information gathered.
- Engaged with respondents to collect demographic and statistical data efficiently.
